Developer Tools:VsCode, Intellij,Git , Github,CI/CD
Frameworks: Reactjs,Nextjs,Flutter,TwailindCss,MaterialUI
Soft Skills:Critical Thinking,Leadership, Teamwork, Problem Solving
Coursework: Full Stack Developer (MERN)
Areas of Interest:Software Developmen, Web Development, App Development,Problem Solving

EXPERIENCE

•**Buclelabs pvt ltd**   *Dec,2022-Present*
Software Developer Engineer(SDE)-1   Gurugram
- Experienced Frontend Developer proficient in JavaScript, HTML5, and CSS3, with a strong focus on React.js, Redux, and modern build tools like Webpack and Babel.
- Skilled in responsive design, API integration, and performance optimization, with expertise in Git and cross-browser development.
- Leading projects and working on blockchain using wagmi, committed to continuous learning and delivering high-quality, scalable web applications

•**Solution91**   *feb,2022-May2022*
FullStack Developer(Intern)   Delhi
- Crafted message campaigns using MERN stack and integrated third-party RCS for efficient delivery.
- Implemented a React.js frontend with seamless API integration for interactive user experiences and streamlined campaign management.

PROFFESSIONAL AND PERSONAL PROJECTS

•**Edublock**

EduBlock uses blockchain for secure institution-student-employer links, with robust certificate issuance and verification tools.

- Created dynamic, responsive UIs in React.js for certificate management and mastered state management with Redux for seamless interactions.
- Developed robust components for user roles, invitations, and payment policies, enhancing admin capabilities and boosting productivity.
- Optimized front-end components for peak performance and translated designs into high-quality code, ensuring consistent UI/UX principles.
- Developed a student app in Flutter with MobX state management, enabling certificate sharing, chatting with universities, and sending requests.

•**Goldy**

Goldy Token uses blockchain for secure digital gold, addressing storage, security, liquidity, blending gold value with digital efficiency.

- Led frontend development of GOLDY website using Next.js 14, Tailwind CSS, Formik, Material UI, Redux, and Waggmi.
- Designed dynamic UI components for token transactions and refinery operations.
- Ensured responsive and cross-browser compatibility using Next.js and Tailwind CSS.
- Optimized performance for enhanced user experience.

•**CakePanda**

Cake Panda (CAPA) blends meme culture and DeFi for a community-driven digital nation with innovative protocols and humor.

- Developed CoinSwap features, designed app similar to Figma, ensuring responsiveness, seamless integration, and all contract calls managed through Waggmi.

EDUCATION

•**Indira Gandhi National Open University**   *2023*
Master's Computer Aplication(MCA)   CGPA: 5.9

•**Indira Gandhi National Open University**   *2020*
Bachelor's of Computer Applications(BCA)   CGPA: 6.2
